Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

1. Claims 1, 3-13 are pending and claims 2 and 14 are cancelled in the instant application.
2. The rejection of claim 1 for "hydrates" under 112, second paragraph is withdrawn in view of applicant's amendment.
3. The rejection of claim 1 for "solvates" under 112, second paragraph is withdrawn in view of applicant's amendment.

The allowability of claims 3-13 will be withdrawn of the following rejection:

4. ***Claim Rejections - 35 USC § 103***

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

The factual inquiries set forth in *Graham v. John Deere Co.*, 383 U.S. 1, 148 USPQ 459 (1966), that are applied for establishing a background for determining obviousness under 35 U.S.C. 103(a) are summarized as follows:

1. Determining the scope and contents of the prior art.
2. Ascertaining the differences between the prior art and the claims at issue.
3. Resolving the level of ordinary skill in the pertinent art.
4. Considering objective evidence present in the application indicating obviousness or nonobviousness.

Claims 1, 3-13 are rejected under 103(a) as being unpatentable over Anderson et al., WO 02/04446 in view of Rai et al., Pelagic Ecology Methodology, 2002, pages 163-167.

Determination of the scope and content of the prior art (MPEP §2141.01)

Anderson et al. disclosed the analogues compound, which from the STN search is

Ascertainment of the difference between the prior art and the claims (MPEP §2141.02)

The difference between the instant claim and the prior art compound is that the instant claim replaces one H of the prior art compound with H³.

Finding of prima facie obviousness-rational and motivation (MPEP §2142.2143)

One having ordinary skill in the art would be motivated to modify the compound of Anderson et al. to obtain the instant claimed compound. Because it is well known in the art to replace a hydrogen in a known compound with H³ to see how the compound would work in the body. Rai et al. replace H by H³ on the thymidine to follow how the drug is used in the body.
